

NIMT

Entrance Requirements

Apprenticeship: Requirements

- At least 16 years of age.
- Grade 10 (minimum) with a pass in Mathematics, Physical Science and English (Official Language), but a Grade 12 qualification will receive preference.
- For Electrical, Instrumentation, Air-conditioning / Refrigeration/Electrical Millwright and Autotronics Grade 12 is compulsory, but most important: A pass in Mathematics, Science and English.
- Certified copies of all schooling/other qualifications.
- Pass an aptitude test - only when required by the NIMT
- Pass a medical examination.
- Preferably to be employed by a company capable of providing the necessary practical job exposure. (Job-attachment)

Skills Upgrading: Requirements

- Trainee could be requested to undergo an evaluation test with the NIMT to establish his trainability and the level at which he has to start training on.
- Trainee must be English literate.
- Minimum of three years job experience. (Copy of 'Service Record' is a prerequisite and therefore must be handed to the Registrar when the trainee registers for the evaluation test).
- Minimum Grade 6 with a pass in Mathematics, Physical Science and English (Official Language)
- Must be employed to enable the trainee to complete the prescribed tasks before entering for the next level.

Please Note:

- Training is conducted over four years, 1st - 3rd year is six months in the Institute and six months in Apprentice's placement in Industry (job attachment position).
- Millwright: First years: 9 months in the Institute.
- 4th Year \pm 10 months in industry and two months in the Institute for trade test preparation.
- Any other requirements asked for by the employer or the Institute.
